NPDES PROGRAMS BRANCH
EPA, REGION 5

Gentlemen:

The letter and supporting documents for the NPDES Permit, dated September 27th, 2012, for the above referenced project has been reviewed and deemed an incomplete submission for the purpose of review towards issuance of an NPDES permit.

The applicant in said above letter stated that the requirements of 8 Ill. Adm. Code Section 900 do not apply to the facility based on regulation 8 IAC 900.802(b). Section 900.802(b) does refer to the scope and applicability of requiring a waste management plan, however the facility is regulated and required to obtain a nutrient management plan under 35 IAC 502 Subpart A or 40 CFR 122.23.

Part 8 Ill. Am. Code 900.803 is guidance used to develop a nutrient management plan and not the regulation that determines the applicability. Please submit the information as requested in the letter dated August 28th, 2012 listed as items 1 and 2. The letter is enclosed.

Please update part 2 of the Narrative Waste Recycling Plan in Section 6. Nutrient values do not match manure test results in Appendix C.

All other items addressed in September 27th, 2012 letter are currently deemed acceptable.

Please provide a written response to the above items within 30 days of the date of this letter. Failure to submit a response that includes the requested information within the time period specified may cause the Permit Section to refer the facility to the compliance and enforcement programs, and could be cause for denial of your NPDES Permit. Include on all correspondence the above proposed NPDES permit number.
